

## **ANGRY BIRDS**

They mesmerized you for hours, they finished the juice out of your phone even when there was no charger around, and they ate so much of your time that your layoff was eminent.

**Now they have invaded in the college campus again and they aren't trapped inside any gadget, they are for real.**

We will have real game booth in our campus where you can play angry birds! The unique, full-body experience also demonstrates the physics behind the Angry Birds games, providing an integrated approach to learning.

Visitors will experience educational concepts in the games in an energetic and an exciting environment.

**ON SPOT REGISTRATION!**

**RULES ARE SAME AS THE VIRTUAL GAME.**
