

SNAKES AND LADDER:

Snakes and Ladders will be a board game played by candidates. Number displayed on die will allow the player to move forward and get closer to the finish.

RULES AND REGULATION:

1. Snakes and Ladders will be played by two to four players, each with their own chance to move around the board.
2. Players roll a die or spin a spinner, then move the designated number of spaces, between one and six.
3. If the space a player lands on is at the bottom of a ladder, he should climb the ladder, which brings him to a space higher on the board.
4. If the space a player lands on is at the top of a snake/chute, he/she must slide down to the bottom of it, landing on a space closer to the beginning. Once they land on a space, they have to perform any action designated by the space.
5. The winner is the player who gets to the last space on the board first, whether by landing on it from a roll, or by reaching it with a ladder.
